

**7.1.3 Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste Management Geo Tagged Photos**

**Solid Waste Management**

It is a process of collecting, treating and disposing of solid material that is discarded and no more in use. The solid waste is collected every day and processed according to the form of the waste. A part of solid waste management dust-bins are kept at different places in the campus for collection of solid waste. Municipal corporation collects the solid waste on regular basis.
