The budget and work plan was prepared by our senior engineer, Mr. Milind Pandit, who discussed in depth, its technical aspects with the villagers. As a result, the role and responsibility of each stake holder was decided.

As per the plan, a total of 9000 CUM soil was to be excavated and the same to be transferred to the farmer's land. After the initial counselling of the villagers, the actual project was launched on 5th May, 2019 and completed on 18th June, 2019, within stipulated time limit of hardly 43 days. A total of 16000 CUM of silt was removed as compared to the earlier work plan.

In all, 16000 CUM silt was excavated which equals to 8000 trolleys, and this quantum of silt was transferred to 27 fields of the same village. It was a win-win situation as more rain water would be harvested in coming monsoon and 27 fields will become more productive.

This project made the community to work together day and night for the noble cause of rain water harvesting with the help of technical and social support from our institutions. This project was completed without any financial support from the government. Dr. Pawar and his team in Bodwad played an important role in completion of the project.

The outcomes:

1. Enhancement of 16000 CUM capacity of rain water
2. Three hectares of land was made cultivable which earlier, was unproductive land
3. Community worked together as a cohesive team for the noble cause
4. Trained rural youth was transformed into skilled managerial personnel
5. Tree plantation of 500 indigenous species on bunds
6. An innovative project of joint venture between community and academia

All India Council for Technical Education (AICTE)

Press Note

Shri R. Subrahmanyam, Hon'ble Secretary, Higher Education, MHRD presented the following awards at an event organized by All India Council for Technical Education (AICTE) on 03.12.2019:

1. Clean and Smart Campus
2. SoUL Competition
3. One Student One Tree
4. Jal Shakthi Abhiyan

Clean and Smart Campus

The 'Swachha Bharat Mission' has catalyzed the importance and relevance of the India's journey to implement the cleanliness agenda in all walks of life with a motto of 'Swachha Bharat is Swasth Bharat'. In order to add stimulus for adoption of technology, AICTE had launched the "Clean & Smart Campus Award 2019", to recognize the efforts of the institutes and its stake holders for attaining the intended objectives of cleanliness and smartness.

The main objective of this award is not only to bring attention of the students, faculty and institutions towards the Swachh Bharat Abhiyaan but also to realize them that how smartly they can reduce the consumption or exploitation of natural resources such as paper, water, energy by deployment of digital technology. Other aspects such as effective waste management, sustainable transport, air pollution etc can also be achieved by 'Smart' use of technologies. TERRE Policy Centre, Pune and International Institute of Waste Management, Bangalore had associated themselves with this competition.

Under the competition, 739 nominations were received under three categories. Finally, 35 institutions were selected for field visits out of which 11 institutes have finally been selected for awards. In order to promote best practices from other institutes, a certificate of appreciation has also been presented to 13 institutes. The list of awardees are as under:-

Solar Urja Lamp Competition

The Indian Institute of Technology Bombay has designed the Solar Urja through Localization for Sustainability (SoULS) initiative, which is primarily based on involving local communities in all the operations relating to the deployment of the solar technology. Since students will be the future bearers of the energy and will bear the maximum brunt of climate change, hence, the students have to be an integral part of taking the idea of Energy Swaraj forward and in the transition from fossil fuel-based energy to renewable-based energy. IIT Bombay in collaboration with the All India Council for Technical Education (AICTE) had organized a solar challenge, referred to as the SOUL Challenge. The challenge was categorized into two problem statements with technical challenge to enhance the efficiency by 2% and have better design using eco-friendly material. An award amount of overall Rs. 1,00,000 was announced by AICTE & IIT Bombay.

From a total of 164 registrations from AICTE approved institutes, 16 entries for shortlisted. Finally, the solution from one college was selected for the award of Rs 50,000/= under this competition.

One Student One Tree

In order to achieve this noble initiative and for making the students socially responsible, all AICTE approved technical institutions were requested to carry out a plantation drive by planting minimum of one tree per student to achieve the target of one crore plants.

As an incentive for carrying out plantation, Institutes were asked to award 20 "AICTE Activity Points" to students as defined in Chapter 6 of AICTE Internship Policy.

Institutions were also requested to carry out plantation drive in consultation with the forest department. The Principal Secretaries of Forest Department of all states, Government of India were requested to help institutions with the land for carrying out plantation.

More than 30 lakh trees have been planted till now. AICTE is committed to take it further and reach the target of 1 crore tree plantation.

Best performing institutions are:

Winning position	Institution Name	Number of Trees Planted
1st	SRM Institute of Science and Technology, Kanchipuram, Tamil Nadu	50000
2nd	Feroze Gandhi Polytechnic, Rae Bareli, Uttar Pradesh	13500
3rd	Sri Krishna College of Engineering and Technology, Coimbatore, Coimbatore, Tamil Nadu	10050

Jal Shakthi Abhiyan

In view of the water crisis, the government has launched its ambitious plan Jal Shakthi Abhiyan. The scheme Jal Shakthi Abhiyan with the theme, "Sanchay Jal

ATTESTED

PRINCIPAL
K. J. SOCIETY'S

Behtar Kal", has commenced from 1st July 2019. The Jal Shakthi Abhiyan is aimed to accelerate water harvesting, water conservation and bore well recharge activities in 256 water-stressed districts.

AICTE has mapped more than 40,000 engineering students with the District administration so that these students can work under Jal Shakthi Abhiyan activities in their respective blocks. Most of the student participation is from the state of Tamil Nadu which is most hit due to present water crises.

On 22nd July 2019, a national level Jal Divas was celebrated and more than 25,000 engineering students participated in different activities of the development and awareness of water safety and security.

Winning position	Institution Name	State
1st	KCES' College of Engineering and Information Technology, Jalgaon	Maharastra
2nd	DY Patil College of Engineering, Akrudi, Pune	Maharastra
3rd	Government Women Polytechnic College, Sanganer	Rajasthan
