## MESSAGE FROM PRINCIPAL DESK

The confluence of technicality and journalism is the prime feature of the "IntraNet" as experienced in its previous issues. The efforts put in by the team of "IntraNet" are creditable as it seems an uphill task to manage two conflicting ideas of realistic and imagination at the same time.

During this fight COVID-19 in this year, we are striving for a vibrant and dynamic academic atmosphere is a wholesome and holistic exercise. This calls for the integration of students in the qualitative processes of the college. The aim is to make learning an enriching, fulfilling, and enjoyable experience through a multidisciplinary approach, combining theory and practice in pedagogy. The focus should be on not only 'what is taught' but also 'the way it is taught'

Institute is adopting the process of change that demands quality outcome-based education. The vision of the institute wants to center of virtual expertise to provide outcome based education. It provides platform for overall self development that includes ethics, moral values etc and develop research aptitude through experiential learning. It should be our collective endeavour to promote an inspirational, motivational, value-based academic, and administrative environment.

IntraNet has always managed to keep in tune with the latest trends and dreams of a distant future where not success but effort is the key word. Think big is the idea that the team has accepted and acted upon. Members of Institute have always been successful in every endeavor of theirs; be it literary or technical. I am sure that this current issue will as always be an expression of the dreams, hope and imagination that have found place in these young eyes and which will soon be a reality through the untiring efforts put in by our prodigy.

I extend my heartfelt congratulation to all editorial board members for putting in their best in bringing out this issue of our college Magazine.

With all best wishes for fulfillment of each dream.
