Fwd: Conduction of Mid Semester Examinations

Sat, Sep 29, 2018 at 3:01 PM

KCE Society's Engineering College <coeit.inquiry@gmail.com>
To: pradnya vikhar <pradnyav123@gmail.com>, "Prof. Sunanda Patil" <srp033@gmail.com>, minal kolhe <minalkolhe@gmail.com>, Kalpesh Mahajan <kalpamahajan@gmail.com>, Swapnil Patil <swapnilspatil85@gmail.com>, Manoj Salunke <manojosalunke2012@gmail.com>

Dear Sir/Madam,

With reference to the discussion and decision during the Fifth meeting of BoE dated Sept 18, 2018, it has been decided that for the **Mid Semester Examinations for B. Tech and M. Tech courses, the question papers be set and conducted at the institute level.** However, to ensure the uniformity of evaluation, **the pattern of question papers should be exactly as per the attachment with this mail.**

During the meeting the members have expressed the concern about the students who are not able to attend the mid semester examinations due to genuine reasons. As the Mid Semester examination is a part of Continuous Assessment, the students will not get any opportunity to improve their performance if they miss the mid-semester examinations. Hence, it was decided that the institutes can conduct a make-up test within 15 days after the mid-semester examinations subject to **due permission from the university for such cases.** The genuine reasons can only be one of the following,

1. The student is hospitalized due to some major illness: the hospitalization papers needs to be produced.
2. Death of father/mother or sibling: the death certificate needs to be submitted.
3. The student meets with an accident and is unable to reach to the examination or unable to write the examination: related medical certificate needs to be submitted.
4. The student is participating in state/national/international inter-university competitions: prior permission from the University is necessary.

Further, if it is observed that the facility is being misused by the students, strict disciplinary actions may be taken and the performance of such students for the said examination can be null and void.

Looking into the shift wise operation of some of the institutes, it was decided that the university will declare the duration for the Mid Semester Examination and **the institutes will decide their own schedule within the dates provided by the University** and conduct the examination. **The institute needs to communicate the timetable and report of completion of the mid semester examination to the University/Regional Centers/Sub-Centers.**

The institute needs to **maintain** the question papers, evaluated answer papers of mid semester examinations and all the records regarding Continuous Assessments for Theory and Lab classes for **next three years** which will be cross checked during the **Academic Audits**.

The extent of syllabus for the mid semester examination will be

- For First Year B Tech: First Two Units for all the subjects
- For S. Y. B. Tech: First Three units for all the subjects
