LACQUER COMPANY

Lacquer Company (NLC) of Kyoto, Japan, employed several thousand men and produced 500000 pieces of lacquer tableware with its Chrysanthmum brand becoming Japan's best tracer and produced 500000 pieces of lacquer tableware with its Chrysanthmum brand becoming Japan's best known and bestselling brand. The annual profit from operations was 500000 pieces a year. NLC did with its Cinysan occoming Japan's best known and bestselling brand. The annual profit from operations in Japan seemed to have matured, with the production steady at 500000 pieces a year. NLC did included in the production of the The manner of the paper of the paper of the paper of the production steady at 500000 pieces a year. The production steady at 500000 pieces a year of the production steady at 500000 pieces a year. The production steady at 500000 pieces a year of the production steady at 500000 pieces a year. The production steady at 500000 pieces a year of the production steady at 500000 pieces a year. The production steady at 500000 pieces at 50000 pieces at 50000 pieces at 500000 pieces at 500000 pieces at 500000 pieces at 50000 pieces at 500000 pieces at 50000 anically no out. The ambitance of the self lacquer ware in America.

The first offer was from the National China Company. It was the largest manufacturer of good quality dinnerware in the U.S., with their control of the contr Prose and Crown" brand accounting for almost 30% of total sales. They were willing to give a firm order for three years for annual dinnerware delivered. They were willing to give a firm order for three years for annual dinnerware delivered. purchases of 4,00000 sets of lacquer dinnerware, delivered in Japan and at 5% more than what the Japanese jobbers paid. However, Nakamura would have to forego the Chrysanthemum trademark to "Rose and Crown" and also undertake not to sell lacquer ware to anyone

The second offer was from Sammelback, Sammelback and Whittacker (henceforth SSW), Chicago, the largest supplier of hotel and whittacker (henceforth SSW), Chicago, the largest supplier of hotel and second offer was from Sammelback, Sammelback and Whittacker (henceforth SSW), Chicago, the largest supplier of hotel and second offer was from Sammelback, Sammelback and Whittacker (henceforth SSW), Chicago, the largest supplier of hotel and second offer was from Sammelback, Sammelback and Whittacker (henceforth SSW), Chicago, the largest supplier of hotel and second offer was from Sammelback, Sammelback and Whittacker (henceforth SSW), Chicago, the largest supplier of hotel and second offer was from Sammelback, Sammelback and Whittacker (henceforth SSW), Chicago, the largest supplier of hotel and second offer was from Sammelback and Whittacker (henceforth SSW), Chicago, the largest supplier of hotel and second offer was from Sammelback and Whittacker (henceforth SSW), Chicago, the largest supplier of hotel and second offer was from Sammelback and restaurant supplies in the U.S. They perceived a U.S. market of 600000 sets a year, expecting it to go up to 2 million for the next two years. Since the Japanese government did not allow overseas investment, SSW was willing to budget \$1.5 million for the next two years towards introduction and promotion Nakamura would be sometiment. introduction and promotion. Nakamura would sell his "Chrysanthemum" brand but would have to give exclusive representation to SSW for five years at standard commission rates and also forego his profit margin toward paying back of the \$ 1.5 million.

What should Mr. Nakamura do?

Case 2

TATA NANO

Tata motors have been eyeing the indian passenger market for a long time. During earlier times, their brands such as Tata Sumo were well received; the company had a very low share in the Indian passenger car market due to suff competition from Maruti Tata motors came up with Tata indica, which mirrored Maruti's products and challenged Maruti's dominance in small car market. Inspired by the success of Indica Tata launched the Tata Nano. Critics were of the view it could not be possible due to the low cost of the car. Tata Nano's modular design is one of the most innovative aspects, it can be shipped separately and assembled in any region. However the fanfare with which Nano was launched did not show much result, the car was not well accepted by the masses despite the low prices, it started selling in discounts like any other car in the Indian market. Tata's as a company are concerned about the same and are still trying to rework out strategies for revival of the market share and to fit into the vision of the company

Questions

- O1. What was the type of strategy Tata's adopted during the launch of Nano.
- Q2. Help the company in working out a suitable strategy for the success of the car.
- Q3. By using a SWOT analysis outline the failure of the car in the Indian markets.
- 4. What in your opinion is the future of such cars in Indian Markets?

Case 3The Kaizen Engineering Company was a multi-location light engineering company. It had manufacturing facilities at Hyderabad, Pondicherry and Indore. The company adopted a budgetary system with a primary emphasis on production and expense budgets. The Pondicherry and indexes the production facilities and production operations. While two units located budgetary targets were established on the basis of an analysis of the production facilities and production operations. While two units located at Hyderabad and Pondicherry were functioning properly and were able to meet their budget targets, the Indore unit was not able to follow at Hyderabad and Alla Manager at the Plant Manager. He had joined the company about eight years ago as an this pattern. Mr. Atul Jain was transferred to the Indore unit as the Plant Manager. He had joined the company about eight years ago as an analysis of the page the Assistant Plant Manager at the Hyderabad unit—the largest of the this this pattern. Militaria and became the Assistant Plant Manager at the Hyderabad unit-- the largest of the three units. Atul Jain was very ambitious engineer trainee and selected in the exercise of authority and control to carry out his instructions. He was a high achiever and believed and slightly autocratic. He was a high achiever and believed in results. He received swift promotions in the company,

Immediately after joining the Indore unit as the Plant Manager, Atul Jain conducted a preliminary study of the plant and issued instructions Immediately after Johnson and watched the operations very closely. He suspended two supervisors in the suddent and issued instructions and watched the operations very closely. He suspended two supervisors in the all departments to include the operations very closely. He suspended two supervisors in the second month for not having met the several new reforms and watched the operations very closely. He suspended two supervisors in the second month for not having met the several new resonant and supervisors left the organization. As a result of his efforts, the unit went mainstream and within a short budgetary targets. Subscience and within a short period of six months exceeded the newly budgeted figures by eight percent. After setting the plant right, he was called back to the Hyderabad period of six months where a vacancy had arisen. However, shortly after he left for Hyderabad, productivity levels at the Indore unit fell below the earlier level andthe budget was again in a state of crisis.

Analyse the case and answer following questions.

organizational climate type created the i) Why was there a drop in productivity at the unit after Atul Jain left for Hyderabad? Atul Jain unit. the Indore
