### What is FrontAccounting?

FrontAccounting is an open source software.

It is a web-based accounting software for small to medium-sized enterprises.

FrontAccounting is available for free. It is released under the GNU General Public License.

### Download FrontAccounting from

<https://sourceforge.net>

### Spoken Tutorials on FrontAccounting Series:

1. Installation of FrontAccounting on Linux OS
2. Installation of FrontAccounting on Windows OS
3. Setup in FrontAccounting
4. Banking and General Ledger
5. Items and Inventory
6. Sales in FrontAccounting
7. Purchases in FrontAccounting

### Features of FrontAccounting software:

- Works on Linux, Windows and Mac operating systems
- Simple with clean and fast interface
- Automates accounting tasks
- Manages cash flow easily
- Reduces chances of error
- Personalized processes built to save time, money and anxiety
- Helps to manage all aspects of business - everything from job costing to inventory management to financial statements
- Gives a professional output
- Contains a number of ready to use reports

### Benefits of using FrontAccounting:

- FrontAccounting is a free of cost and efficient accounting software.
- It provides support and upgradation from time to time.
- Accounting software knowledge is very much in demand among small and medium enterprises in India. But accounting software learning is not a part of the syllabus in commerce streams.
- FrontAccounting is a digital way to do the accounts. Learning this software will help students get a headstart in the job market.
- Only basic knowledge of computers is required to learn FrontAccounting.
- Anyone who learns the FrontAccounting software will be easily able to migrate to any commercial system like Tally.
